A WORLD OF DESIGN

The collections that make up this assortment are united by a simple, contemporary style. While each maintains its own specific identity, they all share neutral tones and a substantial natural elegance that allows them to coexist harmoniously in the same environments with tone-on-tone combinations or sharp contrasts.

Le collezioni che compongono questa raccolta sono accomunate da uno stile essenziale e contemporaneo. Pur mantenendo una propria identità specifica, condividono tonalità neutre e una sostanziale eleganza naturale che permette loro di coesistere in armonia negli stessi ambienti con accostamenti tono su tono o contrasti netti.

Les collections qui composent ce recueil partagent un style essentiel et contemporain. Tout en conservant leur identité propre, ils partagent des tons neutres et une élégance naturelle substantielle qui leur permet de cohabiter en harmonie dans les mêmes environnements avec des combinaisons ton sur ton ou des contrastes nets.

Der gemeinsame Nenner der Kollektionen dieser Sammlung ist ihr schlichter und kontemporärer Stil. Auch wenn jede von ihnen eine ganz bestimmte, eigene Identität besitzt, können sie dank der ihnen gemeinsamen, neutralen Farbtöne und der ihnen innewohnenden, natürlichen Eleganz in denselben Räumen koexistieren – Ton in Ton oder mit klaren Kontrasten.

Las colecciones que componen esta compilación están unidas por un estilo esencial y contemporáneo. Manteniendo su propia identidad específica, comparten tonos neutros y una importante elegancia natural que les permite convivir en armonía en los mismos ambientes con combinaciones tono sobre tono o con fuertes contrastes.

Коллекции, составляющие проект, объединены современным лаконичным стилем. У каждой из них свой характер, тем не менее сходная палитра нейтральных цветов позволяет им гармонично соседствовать в одном и том же интерьере в однотонных композициях или сильных контрастах.

INSIDE, OUTSIDE, EVERY WHERE.

The creative potential of Boost World is evident in its many uses, like interior environments in stylistic continuity with the exterior such as terraces, patios, gardens, and pool areas. Large formats and different thicknesses even allow the use of Boost World surfaces in energy-efficiency projects, such as ventilated facades coordinated with indoor and outdoor spaces.

Le potenzialità creative di Boost World si esprimono in molteplici destinazioni d'uso: ambienti interni in continuità stilistica con l'esterno, come terrazze, patii, giardini, zone piscina. Grandi formati e spessori idonei consentono l'utilizzo delle superfici di Boost World anche in progetti di efficientamento energetico, come facciate ventilate coordinate a spazi interni ed esterni.

Le potentiel créatif de Boost World s'exprime dans de multiples usages : des intérieurs en continuité stylistique avec l'extérieur, tels que des terrasses, patios, jardins, espaces piscine. De grands formats et des épaisseurs appropriées permettent l'utilisation des surfaces Boost World également dans des projets d'efficacité énergétique, tels que des façades ventilées coordonnées avec des espaces intérieurs et extérieurs.

Das kreative Potenzial von Boost World entfaltet sich in vielen Einsatzbereichen: Innenräume, die in stilistischer Kontinuität mit dem Außenbereich dialogieren, etwa mit Terrassen, Innenhöfen, Gärten, Poolbereichen. Große Formate und jeweils geeignete Stärken erlauben die Verwendung der Boost World-Beläge auch in Projekten zur Steigerung der Energieeffizienz, wie etwa an auf Innen- und Außenbereiche abgestimmten, hinterlüfteten Fassaden.

El potencial creativo de Boost World se expresa en una gran variedad de usos: ambientes interiores en continuidad estilística con el exterior, como terrazas, patios, jardines, zonas de piscina. Grandes formatos y espesores adecuados permiten el uso de superficies de Boost World también en proyectos con mayor eficiencia energética, como las fachadas ventiladas coordinadas con los espacios interiores y exteriores.

Креативный потенциал линейки Boost World проявляется в огромном разнообразии применений внутри помещений и на улице – на террасах, в патио, в садах, вокруг бассейнов. Большие форматы и соответствующая толщина позволяют использовать плитку Boost World также для облицовки вентилируемых фасадов, что не только повышает энергоэффективность зданий, но и придает внутренним и наружным пространствам стилистическую цельность.
