LA NOSTRA ASSUNZIONE DI RESPONSABILITÀ

Ci impegniamo ogni giorno per un modello di impresa che rispetti valori etici e garantisca l'armonia tra uomo e natura. L'insieme delle certificazioni ottenute rappresenta una conferma importante degli investimenti in tecnologie all'avanguardia e dell'attenzione al rispetto dell'ambiente con particolare sensibilità alla gestione di alcuni aspetti specifici legati all'industria manifatturiera.

NUESTRA ASUNCIÓN DE RESPONSABILIDAD

Apostamos día a día por un modelo de negocio que respete los valores éticos y garantice la armonía entre el hombre y la naturaleza. El conjunto de certificaciones obtenidas supone una importante confirmación de las inversiones en tecnologías de vanguardia y del cuidado del medio ambiente con especial sensibilidad en la gestión de algunos aspectos específicos relacionados con la industria manufacturera.

OUR ASSUMPTION OF RESPONSIBILITY

We strive every day for a business model that respects ethical values and ensures harmony between man and nature. The set of certifications obtained represents an important confirmation of investment in cutting-edge technologies and attention to environmental protection with special attention to the management of certain specific aspects related to the manufacturing industry.

WIR SIND VERANTWORTUNGSBEWUSST

Wir bemühen uns jeden Tag um ein Geschäftsmodell, das die ethischen Werte respektiert und die Harmonie zwischen Mensch und Natur gewährleistet. Die erhaltenen Zertifizierungen sind eine wichtige Bestätigung für die Investitionen in Spitzentechnologien und die Aufmerksamkeit für den Umweltschutz mit besonderem Augenmerk auf das Management bestimmter spezifischer Aspekte im Zusammenhang mit der Fertigungsindustrie.

НАША ОТВЕТСТВЕННОСТЬ

Мы каждый день работаем в рамках бизнес-модели, которая основывается на уважении этических ценностей и гарантирует гармонию между человеком и природой. Спектр полученных нами сертификатов представляет собой серьезное подтверждение инвестиций в передовые технологии и работу по защите окружающей среды с особым вниманием к управлению некоторыми специфическими аспектами, связанными с обрабатывающей промышленностью.

NOTRE PRISE DE RESPONSABILITÉ

Nous nous efforçons chaque jour de mettre en place un modèle d'entreprise qui respecte les valeurs éthiques et garantit l'harmonie entre l'humain et la nature. L'ensemble des certifications obtenues représente une confirmation importante de nos investissements dans les technologies de pointe et de notre attention pour respect de l'environnement, avec une sensibilité particulière pour la gestion de certains aspects spécifiques liés à l'industrie manufacturière.

MADE
IN ITALY
SINCE
1741

Tutti i prodotti Marca Corona sono progettati e realizzati interamente in Italia, all'interno del distretto ceramico sassolese, utilizzando tecnologie all'avanguardia, professionalità qualificate e materie prime certificate. Scriviamo con orgoglio "Made in Italy" sulle nostre piastrelle perché sinonimo di passione creativa, know-how, trasparenza ed etica del lavoro, i valori irrinunciabili che ogni giorno ispirano le nostre attività.

All Marca Corona products are designed and manufactured entirely in Italy, inside the Sassuolo ceramics district, using cutting-edge technology, great professionalism and certified raw materials. We write "Made in Italy" with pride on our tiles because they stand for creative passion, expertise, transparency and work ethic, the essential values that inspire our choices and activities every day.

Tous les produits Marca Corona sont conçus et fabriqués entièrement en Italie, dans la région de Sassuolo spécialisée dans la céramique, grâce à des technologies d'avant-garde, des professionnels qualifiés et des matières premières certifiées. Nous sommes fiers d'inscrire la mention Made in Italy sur nos carreaux car elle est synonyme de passion créative, de savoir-faire et de déontologie professionnelle, des valeurs incontournables qui, chaque jour, inspirent nos choix et nos activités.

Alle Marca Corona Produkte werden vollkommen im Keramikbezirk von Sassuolo in Italien entwickelt und hergestellt, unter Verwendung fortschrittlicher Technologien, qualifizierter Fachkräfte und zertifizierter Rohstoffe. Wir schreiben stolz „Made in Italy“ auf unsere Fliesen, denn Made in Italy steht für kreative Leidenschaft, Know-how und Arbeitsethik: unverzichtbare Werte, die tagtäglich unsere Entscheidungen und Aktivitäten inspirieren.

Todos los productos Marca Corona están diseñados y realizados enteramente en Italia, en la zona de producción cerámica de Sassuolo, con tecnologías avanzadas, profesionales cualificados y materias primas certificadas. Escribimos con orgullo "Made in Italy" sobre nuestras baldosas porque son sinónimo de pasión creativa, know-how y ética del trabajo, valores irrenunciables que cada día inspiran nuestras elecciones y actividades.

Вся продукция Марка Corona полностью разрабатывается и выпускается в Италии, в пределах керамического промышленного района г. Сассуоло. Мы с гордостью наносим на нашу плитку маркировку "Made in Italy", потому что она означает творческую, увлеченную работу, ноу-хау и трудовую этику, то есть, те фундаментальные принципы, которые лежат в основе наших ежедневных действий и выборов.

Ceramics of Italy

Un'azienda rappresenta un'istituzione fondamentale della società ed è tenuta ad operare con la massima correttezza nei confronti delle persone che la sostengono e del territorio che la ospita: questa convinzione ci ha spinto ad aderire al "Codice Etico" di Confindustria Ceramica che richiede di segnalare chiaramente l'origine dei prodotti e di rispettare tutte le normative in materia di ambiente, sicurezza e qualità.

A company is a fundamental social institution and has to work with maximum fairness towards the people sustaining its daily activity and the hosting environment. That is why Marca Corona has embraced the Ethical Code of Confindustria Ceramica (Confederation of Italian Ceramics Manufacturers) that requires the origin of the products to be marked clearly and in strict compliance with all environmental, health and safety and quality standards.

Une entreprise est un acteur fondamental de la société et elle est tenue d'opérer dans la transparence et la correction à l'égard des personnes qui la soutiennent et du territoire qui l'accueille. C'est pourquoi Marca Corona a adhéré au Code éthique de Confindustria Ceramica qui oblige de signaler clairement l'origine des produits et de respecter toutes les normes en matière d'environnement, de sécurité et de qualité.

Ein Unternehmen ist eine grundlegende Einrichtung der Gesellschaft und deshalb dazu angehalten, mit allerhöchster Transparenz und Korrektheit zu handeln, sowohl gegenüber den Personen, die es unterstützen, als auch gegenüber dem Territorium, in dem es sich befindet. Deshalb hat sich Marca Corona dem „Ethikodex“ der Industrieverbands der italienischen Fliesenhersteller angeschlossen, der verlangt, dass der Ursprung der Produkte deutlich anzugeben ist und alle Vorschriften über Umwelt, Sicherheit und Qualität einzuhalten sind.

Una empresa constituye una institución fundamental de la sociedad y tiene la obligación de obrar con la máxima transparencia y honradez ante las personas que la sostienen y el territorio donde se encuentra. Por esta razón, Marca Corona ha adherido al "Código Ético" de Confindustria Ceramica, que exige indicar claramente el origen de los productos y respetar todas las normas en materia de medio ambiente, seguridad y calidad.

Компания является очень важным членом сообщества и она должна действовать крайне ясно и корректно по отношению к людям, которые ее поддерживают, и к территории, где она располагается. По этой причине Марка Corona присоединилась к "Этическому кодексу" отраслевой ассоциации производителей керамики Confindustria Ceramica, который требует четкого указания происхождения продукции и соблюдения всех нормативных документов, касающихся охраны природы, безопасности и качества.

IT. L'indicazione d'uso, anche quando presentata dal Venditore in cataloghi e manuali, è da ritenersi puramente indicativa. Sulla base delle caratteristiche tecniche riportate nella Scheda Tecnica è sempre compito del progettista valutare l'idoneità del Prodotto alle condizioni specifiche di utilizzo in funzione delle sollecitazioni e delle variabili che si possono verificare nell'ambiente di destinazione alterandone le sue caratteristiche.

EN. The instructions for use are to be considered purely indicative even when provided by the seller in catalogues and manuals. The designer engaged with the project has to assess the suitability of the product in the specific usage conditions, depending on the stresses and variables that could alter its characteristics. The Technical Data Sheet thus constitutes a guideline for the product's application.

V4

Minima Variazione

Le piastrelle mostrano differenze di colore e/o texture/grafiche e/o motivi superficiali quasi impercettibili.

Moderata Variazione

Le piastrelle presentano variazioni visibili ma leggere di colore e/o texture/grafiche e/o motivi superficiali.

Sostanziale Variazione

Le piastrelle presentano differenze marcate e riconoscibili di colore e/o texture/grafiche e/o motivi superficiali.

Random

Ciascuna piastrella presenta differenze molto marcate e volutamente casuali in termini di colore e/o texture/grafiche e/o motivi superficiali rispetto alle altre. L'effetto finale della posa è eterogeneo, con un effetto estetico complessivo unico e non ripetibile.

Minimal Variation

The tiles show almost imperceptible differences in colour and/or texture/graphics and/or surface patterns.

Moderate Variation

The tiles display visible but slight variations in colour and/or texture/graphics and/or surface patterns.

Substantial Variation

The tiles feature marked and clearly recognisable differences in colour and/or texture/graphics and/or surface patterns.

Random

Each tile presents highly pronounced and intentionally random differences in terms of colour and/or texture/graphics and/or surface patterns compared with the others. The final installation effect is heterogeneous, with a unique and unrepeatable overall aesthetic.

Variation Minimale

Les carreaux présentent des différences presque imperceptibles de couleur et/ou de texture/graphismes et/ou de motifs de surface.

Variation Modérée

Les carreaux présentent des variations visibles mais légères de couleur et/ou de texture/graphismes et/ou de motifs de surface.

Variation Substantielle

Les carreaux présentent des différences marquées et clairement reconnaissables de couleur et/ou de texture/graphismes et/ou de motifs de surface.

Random

Chaque carreau présente des différences très marquées et volontairement aléatoires en termes de couleur et/ou de texture/graphismes et/ou de motifs de surface par rapport aux autres. L'effet final de la pose est hétérogène, avec un rendu esthétique unique et non reproductible.

Minimale Variation

Die Fliesen weisen nahezu unmerkliche Unterschiede in Farbe und/oder Textur/Grafiken und/oder Oberflächenmustern auf.

Moderate Variation

Die Fliesen zeigen sichtbare, aber leichte Variationen in Farbe und/oder Textur/Grafiken und/oder Oberflächenmustern

Substantielle Variation

Die Fliesen weisen deutliche und klar erkennbare Unterschiede in Farbe und/oder Textur/Grafiken und/oder Oberflächenmustern auf.

Random

Jede Fliese weist im Vergleich zu den anderen sehr ausgeprägte und bewusst zufällige Unterschiede hinsichtlich Farbe und/oder Textur/Grafiken und/oder Oberflächenmustern auf. Das verlegte Gesamtbild wirkt heterogen, mit einem einzigartigen und nicht reproduzierbaren ästhetischen Ergebnis.

Variación Mínima

Las baldosas muestran diferencias casi imperceptibles de color y/o textura/gráficos y/o motivos superficiales.

Variación Moderada

Las baldosas presentan variaciones visibles pero ligeras de color y/o textura/gráficos y/o motivos superficiales.

Variación Sustancial

Las baldosas presentan diferencias marcadas y claramente reconocibles de color y/o textura/gráficos y/o motivos superficiales.

Random

Cada baldosa presenta diferencias muy marcadas y deliberadamente aleatorias en cuanto a color y/o textura/gráficos y/o motivos superficiales respecto a las demás. El resultado final de la instalación es heterogéneo, con un efecto estético único e irrepetible.

Минимальная Вариация

Плитки имеют почти незаметные различия в цвете и/или текстуре/графике и/или поверхностных мотивах.

Умеренная Вариация

Плитки демонстрируют видимые, но лёгкие различия в цвете и/или текстуре/графике и/или поверхностных мотивах.

Существенная Вариация

Плитки имеют выраженные и легко различимые различия в цвете и/или текстуре/графике и/или поверхностных мотивах.

Random

Каждая плитка имеет очень выраженные и намеренно случайные отличия по цвету и/или текстуре/графике и/или поверхностным мотивам по сравнению с другими. Итоговый вид укладки получается неоднородным, с уникальным и неповторимым эстетическим эффектом.

General sales conditions.

Rev.1a of 1st January 2018

A.- CONTRACT COMPLETION

A.1.- These general sales conditions govern every sales contract between the Seller and the Buyer and any amendment or exception thereof shall be agreed in writing.

A.2.- Any offers, credits and/or rebates granted by agents or other intermediaries, shall not be considered valid if they are not confirmed in writing by the Seller.

A.3.- The Buyer shall send the written orders to the Seller, directly or through the agents, and the orders shall include the codes of the required products, quantity, price and destination. The order sent by the Buyer is irrevocable.

A.4.- The sale shall be deemed completed when: (i) the Buyer receives a written confirmation from the Seller, via e-mail, fax or other electronic means, that complies with the terms and conditions of the order; or (ii) if the confirmation sent by the Seller contains conditions that differ from the order sent by the Buyer, when the latter accepts it in writing or in any case does not object within 7 (seven) days from reception; or (iii) if the Seller does not provide a written confirmation, when the products are delivered and loaded by the Buyer.

B.- PRICES

B.1.- The prices agreed upon for each individual sale are net prices for cash delivery ex works (the Seller's plant shall be specified in the order confirmation), unless otherwise agreed in writing.

C.- PRODUCT CHARACTERISTICS

C.1.- The Buyer declares to have read and comply with the content of the following documentation published on the corporate website: 1) Laying, use, cleaning and maintenance manual and 2) Technical data sheets.

C.2. Given the intrinsic variability of the ceramic products, the characteristics of the samples, previously sent by the Seller to the Buyer, are purely illustrative and cannot be deemed binding.

C.3. Unless specifically requested and agreed before the order confirmation, the Seller does not guarantee that the entire quantity of an article on order shall be sent from one same production lot.

D.- DELIVERY TERMS

D.1.- The delivery terms are approximate and a delay does not give the Buyer any right to claim compensation, without any exception.

D.2.- If the Buyer does not collect the goods, after 10 (ten) days from the date of the "goods ready" notice, the Seller has the right – at its discretion – to establish a new delivery date.

E.- SHIPPING ARRANGEMENTS AND TERMS

E.1.- The Buyer must communicate any variation in the destination of the products, different from the one agreed in the order confirmation, in writing within, and no later than, the second day before the day foreseen for the collection at the Seller's premises. The Seller reserves the right not to accept the change of the product destination. If the actual destination of the product is different from the one stated by the Buyer, the Seller reserves the right to suspend the execution of the supplies underway and/or to terminate the contracts in force and the Buyer shall not have the right to claim direct and/or indirect compensation of any type.

E.2.- Unless otherwise agreed, the goods shall be delivered ex-works (EXW - Incoterms 2010) and this shall also be the case when the parties agree that the delivery, or part of it, shall be arranged by the Seller on the Buyer's behalf. In any case, the risks shall transfer to the Buyer upon delivery to the first carrier.

E.3.- Without prejudice to the Seller's extraneity in relation to the transport contract, the Seller shall not be indicated as "shipper" on the bill of lading. The communication of the gross weight of the container to the Forwarding agent does not represent in any way the undertaking of any liability by the Seller as regards the SOLAS (Safety Of Life At Sea) Convention. In no event may the said communication be taken to be the VGM (Verified Gross Mass).

E.4.- The Buyer undertakes to ensure that the vehicle sent to the Seller's warehouse is suitable for the loading operations, considering the nature of the products. If the vehicle sent to collect the goods causes difficulties in the loading operations, the Seller reserves the right to charge a penalty, of 4% of the value of the products, to cover the extra logistics costs. If the vehicle sent is not at all suitable, the Seller reserves the right to refuse to load the goods and the Buyer shall not have the right to claim compensation for any direct and/or indirect cost that may arise therefrom.

E.5.- The Buyer is responsible for assigning the carrier the task of checking the

products before loading them; any observations concerning the condition of the packaging and the correspondence of the quantities loaded with those on the transport document must be made by the carrier upon collection of the goods. The said observations must be written on all the copies of the transport documents, otherwise the loaded products shall be considered to be complete and in good condition. As a result, the Seller shall not be liable for any missing or damaged products not reported by the carrier.

E.6.- The Buyer is also responsible for assigning the carrier the task of checking the loading procedure and the stability of the goods on the vehicle, in order to prevent damage during transport and to comply with all road safety provisions.

F.- PAYMENTS

F.1.- All payments must be made to the Seller's registered office. Payments made to agents, representatives, or sales assistants shall not be considered as made until the amounts are received by the Seller.

F.2.- The Buyer shall not fulfil its payment obligations by making payments from countries other than its own country of residence, if the said countries do not guarantee an adequate exchange of information with Italy. In case of breach of the said prohibition, the Seller has the right to terminate the contract for just cause and the Buyer shall not have the right to claim compensation for any damage suffered.

F.3.- Any costs for stamp duty and bank draft fees shall be borne by the Buyer. Failure to fulfil, even only in part, the payment shall result in the application of interest on arrears in favour of the Seller, from the date established for the payment, as envisaged by legislative decree 09/10/2002 no. 231.

F.4.- Unless otherwise agreed in writing, the Buyer undertakes not to offset any receivables, of whatever nature, owed by the Seller.

G.- CLAIMS

G.1.- Upon receipt of the products, the Buyer shall perform a visual inspection in compliance with instructions provided in point 7 of UNI EN ISO 10545-2 standards.

G.2.- The products must be installed and fitted strictly respecting the recommendations related to the activities to be performed before and during the laying of the product specified in document 1) Laying, use, cleaning and maintenance manual, published on the Seller's website, and on the product packaging and/or inside the packaging. Faults caused by an incorrect installation and by missing/incorrect maintenance (different from instructions provided in document 1) Laying, use, cleaning and maintenance manual), by an unsuitable use and/or by normal wear over time shall not be considered product faults.

G.3.- With the exception of the limits of acceptability foreseen by the international EN 14411 (ISO 13006) standard, the parties acknowledge as identifiable faults those product defects that are immediately visible upon receipt thereof and that make the material unsuitable for use or that significantly reduce its value. This category includes faults as defined in the document 1) Laying, use, cleaning and maintenance manual, published on the Seller's website. Identifiable faults include, by way of a non-limiting example, superficial defects, decoration defects, defects concerning polishing, dimensions, surface flatness, straightness of sides/rectangularity and thickness, cracks, chippings or rough edges, non-compliant shades, mixed shades and products that feature problems deriving from the cutting process and/or from chips.

G.4.- If the Buyer finds an identifiable fault, it must be reported in writing to the Seller, within 8 (eight) days from receipt of the products; failure to send the claim shall result in the forfeiture and loss of such right. The Buyer shall keep the entire lot of material readily available for the Seller. The claim shall include the invoice details and an accurate description of the claimed fault together with photographs, where possible. In the event that the claim proves to be unfounded, the Buyer shall refund the Seller any costs incurred for an inspection (expert's reports, travel, etc.).

G.5.- Hidden faults shall be notified to the Supplier in writing, by recorded delivery letter with advice of receipt, within 8 days from the date such fault is found, under penalty of forfeiture.

G.6.- The Buyer's right to make a claim for faults under warranty is valid for 12 (twelve) months from the delivery of the products.

H.- WARRANTY FOR FAULTS

H.1.- The Seller's warranty is limited to first grade products and not second or third grade products or lots on offer with special prices or discounts, which must be duly specified with a note in the order confirmation.

H.2.- The Seller does not guarantee the suitability of the products for particular uses, and only guarantees the technical specifications published on the website in the document 2) Technical data sheets. The indication for use is merely indicative, even when written in the Seller's catalogues and manuals.

gained during the performance of this contract.

N.2.- The confidentiality obligation shall be undertaken for the entire duration of this contract and for the period following its execution.

N.3.- In case of failure to uphold the confidentiality obligation, the non-fulfilling party shall pay the other party compensation for all damages that may derive therefrom.

O.- SELLER'S TRADEMARKS AND DISTINCTIVE SIGNS

O.1.- The use of trademarks, ornamental designs and creative works in general, in whatever form and manner of expression (such as, by way of a non-limiting example: images, photos, drawings, videos, shapes, structures, etc.) constituting the Seller's intellectual property, through any means (such as, by way of a non-limiting example: press, video, radio, internet, social media, instant messaging platforms or VoIP, etc.) is strictly forbidden. Any exception to the said prohibition, even only partial, must be authorised in writing, each time, by the Seller's general management.

P.- CONTRACT LANGUAGE, APPLICABLE LAW, JURISDICTION AND AUTHORITY

P.1.- The present CONTRACT is drafted in Italian, and in case of disputes the said version shall prevail over any translations in other languages.

P.2.- Any dispute concerning the supply of products shall be subject to Italian law and jurisdiction and the Court of Modena, the town in which the Seller has its registered office, shall have sole local jurisdiction.

On the basis of the characteristics described in the document 2) Technical data sheets, the designer always has the task of assessing the suitability of the product for the specific use conditions, taking into account the stress and variables to which the product will be subjected, which may alter its characteristics; for example, the traffic intensity, quality of traffic (foot traffic with the presence of sand, debris...), adverse weather conditions and any other unpredictable factor to which the material may be exposed.

H.3.- **In the event that identifiable product faults are ascertained, as defined in sub section G no. 3, the Seller shall replace the faulty product with another one with equal or superior characteristics; should this not be possible, the Seller shall apply a significant price reduction. Alternatively, following the return of the faulty products, the Buyer shall have the right to a refund of the price paid plus the transport cost, with the exclusion of compensation for any other direct and/or indirect damage.**

H.4.- **The Seller's warranty shall not be valid if the products that have identifiable faults (totally or in part) have been used and/or in any case transformed, as this entails that the Buyer (or its customer) expressed the intention to accept them in the condition in which they were found.**

H.5.- **In the event that hidden product faults are ascertained, the Seller's warranty is limited to the replacement with other products of equal or superior characteristics; should this not be possible the Seller shall refund the price paid plus the transport cost.** In any case, the Seller's warranty for any direct and/or indirect damage caused by the faulty product, shall be limited to an amount that shall not be greater than double the selling price applied by the Seller, only in relation to the faulty part of the supply.

H.6.- In the event that the Buyer resells the product to subjects protected by the consumer code (law decree no. 206/2005), the former shall be responsible for the conditions applied, if different from those stated herein, and shall ensure that the consumer's rights are exercised, in relation to the remedies and terms established by the said code. If there are the grounds for the Buyer to exercise the right of recourse and/or make a claim against the Seller/manufacturer, the said action shall take into account or go beyond the exemptions and limits established in sub sections G no. 1 and H no. 5.

I. SOLVE ET REPETE (pay and then claim) AND TERMINATION CLAUSES

I.1.- Pursuant to article 1462 of the Italian Civil Code, on no account may the Buyer suspend or delay payment of collected material, including in the event of alleged defects or faults in the material; this does not affect the right to claim back any payments made unduly (solve et repete).

I.2.- If the Buyer's financial situation changes or in the event of non-payment (even partial) of products already supplied, the Seller reserves the right to suspend the execution of the supplies underway and/or to terminate the contracts in force and the Buyer shall not have the right to claim direct and/or indirect compensation of any type.

L.- RETENTION OF OWNERSHIP

L.1.- The products supplied shall remain exclusive property of the Seller until the Buyer has paid the full amount.

L.2.- During the aforementioned period, the Buyer shall undertake the obligations and responsibilities as bailee (also referred to as custodian) and shall not transfer the said products, grant their use, let them be seized or distrained without declaring that the property is of the Seller, and the Buyer shall immediately inform the Seller by recorded delivery letter with advice of receipt.

M.- FORCE MAJEURE

M.1.- Each party may suspend the fulfilment of its contractual obligations, when the said fulfilment is impossible or objectively too costly due to an unforeseeable impediment independent from the parties, such as for example: strike, boycott, lockout, fire, war (declared or not), civil war, riots and revolutions, requisitions, embargo, power blackouts, extraordinary breakage of machinery, delays in the delivery of components or raw materials.

M.2.- The party that wishes to apply this clause shall immediately notify the onset and end of the circumstances of force majeure to the other party in writing.

M.3.- If the suspension due to force majeure lasts longer than 60 (sixty) days, each party shall have the right to terminate this contract, with a notice of 10 (ten) days to be notified to the counterparty in writing.

N.- CONFIDENTIALITY

N.1.- The Buyer undertakes to maintain confidentiality as regards all information of a technical (such as, by way of a non-limiting example, drawings, tables, documentation, formulas and correspondence) and commercial nature (including contractual conditions, purchase prices, payment conditions...)
